Dear Mr Iger,

I have been informed by Peoples Solidaires of the results of the investigations led by SACOM and China Labor Watch at your suppliers Rong Gao, Tianyu Toys, Wai Shing and Merton Toy in China.

I am extremely concerned by workers' situations at these factories and urge you to:

- Enable manufacturers to comply with labour laws and your code of conduct (in particular by raising order prices and allowing reasonable delivery time for all orders);
- Rethink your audit system that failed to identify serious labor violations;
- Collaborate with NGOs in China to provide trainings on labour laws for suppliers and workers.

Sincerely yours,
